

## AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph on page 6 beginning with "In an embodiment..." with the following rewritten paragraph:

In an embodiment of the present invention, housed as a handheld computer, the display and processing functions are integrated within a display/processor module and two keypad sliders provide a keypad for input. The keypad sliders may slide in a plane parallel to the surface of the display and may be adjusted to shield or expose the display by sliding. One or both of the keypad sliders may include a transparent window that enables viewing of the display while in the closed position. In one embodiment, a "QWERTY" keypad with control and option keys is provided.
